# Unfolding Excellence in Medical & Pharma Packaging Engineering

## Packaging Design & Process Development

- Packaging Design
- CAD Modelling
- Project Management
- Supplier Selection
- Design Transfer
- Process Automation

## Prototyping & Visualization

new

- In-House Prototyping
- CAD and Rendering Software
- Raw materials on stock
- Additive Prototyping
- Plotting and Graphical Printing
- Sealing & Thermoforming

## Packaging Lifecycle Management

- Supplier Changes
- Material Changes
- EU MDR Remediation
- Packaging Harmonization
- Cost Reduction
- Business Integration

## Sustainability

- Reduce material consumption
- Design for Recycling
- Reduce of Carbon Footprint
- Improvement of Recyclability
- PPWR Expertise
- Define Sustainability Strategy

## Packaging Analytics

- Data Driven Decision Making
- Packaging Portfolio Analysis
- Data Visualization
- ERP Integration
- Data Efficiency
- Reduce Complexity

health well packed.
